

— ECOS —

SoftFlex™

ECOS SoftFlex™ is a high-tenacity, soft-touch, sustainable polyester DTY offered at a competitively lower price. It provides an eco-friendly alternative to nylon DTY while delivering a competitive advantage to customers and the environment.

POTENTIAL BENEFITS:

- Direct Nylon DTY Substitute is engineered to match the soft hand feel and superior tenacity of Nylon
- Designed for exceptional strength to endure rigorous use
- Delivers luxurious softness for a comfortable feel across diverse environments
- Advanced moisture management keeps the wearer dry and fresh

WHY CHOOSE ECOS SOFTFLEX™?

- Sustainable alternative to traditional Nylon
- Comparable performance characteristics
- Enhanced environmental credentials
- Offered as complete package, competitive price
